

Genuine DEUTZ Parts

DEUTZ air filters

The engine company.

- 1 Housing
- 2 Retainer
- 3 Safety element
- 4 Main filter element
- 5 Housing lower section with wire brackets

- Highest level of filter fineness
- Optimum folding geometry
- 100% leak-free as a result of special adhesive connection
- Special paper embossing and grooving

- Optimally matched to the DEUTZ engine.

Cost reduction

- Only the genuine spare part guarantees consistent engine performance and low fuel consumption.

Durability

- Service life extension of the DEUTZ air filter as a result of impregnation protection.
- Neatly produced and glued bellows ends provide for high levels of separation and reduce the danger of wear.
- Highest quality and long service life by the use of a DEUTZ safety element. This prevents dirt from reaching the clean side of the engine.

Reliability

- Ultimate tear-resistance of the DEUTZ air filter element provides for reliable engine protection.
- Large filter surface guarantees filtered air for the entire air filter interval duration.
- Highest levels of operational safety by the radial sealing against the housing.
- Mandatory for diesel particulate filter protection.

Only the genuine article provides optimum protection.
